

The Sankey diagram illustrates the flow of 120014 individuals across five time points (T0, T1, T2, T3, T4) and a final 'Uricult' state. The diagram uses blue bars for transitions between time points and orange bars for transitions to the 'Uricult' state. A legend on the right indicates that blue represents 'Not linked' and orange represents 'Repaired'.

Legend:

- Not linked (Blue)
- Repaired (Orange)

Flow Data (Approximate Values):

From	To	Not linked (Blue)	Repaired (Orange)
T0	T1	~115,000	~5,000
T1	T2	~110,000	~10,000
T2	T3	~105,000	~15,000
T3	T4	~100,000	~20,000
T4	Uricult	~10,000	~90,000
